ROLLATOR WITH FOREARM SUPPORTS

LIBERTY
HEALTHCARE

ROTATING FOREARM SUPPORTS

The unique Navigator is a rollator with forearm supports specially designed for users with arthritis and/or limited strength in their arms and hands. It is equipped with very stable and comfortable height adjustable forearm supports. From now on, the Navigator is also available as a new version with horizontal angle-adjustable forearm supports that provides optimal adjustment options, so each user can set it exactly according to his needs and then enjoy the comfortable hand position. For users who need a rollator with forearm supports, Navigator is the best choice. For all the details and benefits, please read the following pages.

REHASENSE

COMMON DETAILS & SPECIFICATIONS

The height adjustable forearm supports are very easy to adjust in a range of 75 – 115 cm (total for both rollator sizes).

Centre-to-centre distance between forearm supports is 47 cm. It is equipped with a strap in order to stabilize and strengthen the upper part. The strap must be connected during use.

The deep and soft padded forearm supports provides optimal arm comfort and support for the user. They are made of PU and the length is 24 cm. The surface is washable and easy to keep clean.

The brake and push handles are fully integrated into the forearm support and length adjustable in a range of 13 cm.

The push handles can be rotated to fit the most comfortable position of the user's hand. Width between push handles is 47 cm.

The hand brakes include parking brake. They run very smooth and can be operated with very little force. Reliable and maintenance free.

Easy to lock and unlock the rollator with the unique A+ locking system. It folds easily by pulling the strap on the seat. It stands firmly on its wheels taking up little space.

The Navigator is available with standard or comfort wheels. Standard wheels are made with black rubber tyre (TPE) and comfort wheels are made with black soft PU tyre.

Practical net bag as an extra feature to put between the handgrips for carrying small items such as a mobile phone, medicines, glasses, keys etc.

The Navigator is equipped with a step pedal on both sides which makes it easier to pass doorsteps and similar obstacles.

The specially designed aluminium frame is well-known of the other Rehasense rollator designs. The Navigator comes in 3 colours. For more information please turn to next pages.

The Navigator is designed and approved for use on flat surfaces indoor only.
