

PLATFORM

**LIBERTY
HEALTHCARE**

The Platform is narrow enough to pass through a 70 cm door opening, making it the perfect choice when working in confined spaces and to perform in every situation.

Modern design, rigid and stable but still with a light construction. It has height adjustable gas spring activated arm support.

Clamps for adjusting length & angle of hand grips, arm pad width and locking mechanism for height adjustment. Easy to adjust without tools.

Soft and comfortable PU-pads with optimal thickness for a more stable feeling, Easy width adjustment, Waterproof without seams for better cleaning (hygiene). With lateral support to prevent the arms from sliding off.

Braking system with internal cables underneath. Length and angle adjustable to the user's need.

Two-part frame easy to disassemble into a small package for transportation of the device.

The height adjustment lever works in both directions (up and down).

100 mm castors to reach under low objects; all four castors directional locking.

A narrow frame allowing it to pass through a 70 cm door opening.

TECHNICAL DETAILS

Standard colour:
White

Safe weight limit:
150 kg

Arm pads width:
66-80 cm

Arm pads height:
90-130 cm

Length:
80 cm

Weight:
18 kg

Width between arm pads:
31 - 48 cm

Transportation size
(disassembled in box):
Length x Width x Height:
85 x 77 x 23 cm

Article item: PLAT1000GB
Without:

- Gas spring support:
PLAT1000MB
- Brake:
PLAT1000G
- Gas spring support & brake:
PLAT1000M

Frame material:
Aluminium and steel

ACCESSORIES

One-hand brake

Infusion standard with holder

Oxygen bottle holder

Platform is CE-marked and fulfils the requirements of EU directive 93/42 EEC for medical devices.
