

ICON 120

COMFORT WHEELCHAIR

MODULAR THINKING

As part of the **ICON Mobility System**, utilising modular design and interchangeable parts across the ICON family, the **ICON 120** can cater for many different user types and functional needs. All day comfort is ensured with the reclining back and tilt in space seat when combined with pressure distributing seat and back cushions. The arm rests and head rests are covered in soft and pliant PU fabrics to minimise pressure concentrations.

TECHNICAL INFORMATION

Safe weight limit:	180 kg
Safe weight limit for use as seat in car:	134 kg
Weight:	39 kg
Transportation weight:	27 kg
